# MEDITERRANEO X

Turntable

Inspired by our most iconic turntable, Mediterraneo X celebrates its ancestor through an unprecedented mix of technologies, innovative features, and a design created to achieve the highest performance: it's our first turntable ever with a high mass platter, made of Aluminium and POM platter and a 20mm thick solid machined aluminium plinth joining massive hardwood finely machined and 3mm stainless steel platform to increase structure rigidity. An innovative and easy-to-use touchscreen display allows regulating the motor torque controlling the power transmission to enable music genre perfect adapting and check the cartridge timer, designer to track playing time for up to 3 cartridges. Besides Mediterraneo X features high-quality RCA connectors to enjoy the favourite interconnect cables.

- | Massive solid aluminium and POM platter (45mm, 7Kg)
- | High-damping design precisely engineered
- | 33/45 electronic speed control with fine speed adjustments
- | TFT colour display with touchscreen interface
- | Aluminium, stainless steel, and hardwood walnut plinth
- | Ultra-precise synchronous 12V motor
- | Variable torque with easy adjustments
- | Cartridge timer to track playing time
- | Rigid Turntable Design

External power supply (optional)

PST-10

Finishes

Italian walnut hardwood

# MEDITERRANEO

Turntable

Inspired by our Italian heritage, the Mediterraneo turntable combines beauty and technical perfection into a unique instrument for musical pleasure. It is our own ode to musical passion and dedication to vinyl. Made of aged Italian walnut hardwood, the chassis benefits from the quality of such noble material: exceptional elasticity, strength and high density.

External power supply (optional)	PST-10
Finishes	Gold leaf, Italian walnut hardwood

- | Ultra precise synchronous high-torque 12V motor
- | Electronic speed control with fine speed adjustments (pitch control)
- | 45mm heavy platter in high-density POM
- | Damping design with triple-plinth structure
- | Italian walnut, aluminium, s/steel and acrylic
- | Rigid Turntable Design

# GIGLIO

Turntable

We believe that every turntable we make has something special that reveals our dedication to traditions, history, and our enthusiasm. Giglio is one of our best creations: our engineers and designers have worked together to achieve the perfect balance between beauty and performance.

External power supply (optional) PST-10

Finishes Italian walnut hardwood

- | Fine speed adjustments (pitch control)
- | Electronic speed control for 33<sup>1/3</sup>rpm and 45rpm
- | 33mm platter in high-density POM
- | Damping design with triple-plinth structure
- | Italian walnut, aluminium, s/steel and acrylic
- | Rigid Turntable Design

Jason Kennedy:

*The Gold Note is a smooth performer, with an effortless style that makes it easy to forget the mechanics of the process and enjoy the music. There was a real vista of sound that revealed the quality of playing and drew me into the music in no uncertain terms.*

# PIANOSA

Turntable

The Pianosa offers a unique combination of high-quality materials and refined technical solutions to obtain excellent audio performance, thanks to the sound philosophy experimented with the full range of Gold Note turntables, to our experience and deep knowledge of innovative shapes and precious materials.

External power supply (optional)	PST-10
Finishes	Italian walnut hardwood, Black

- | Fine speed adjustments (pitch control)
- | Electronic speed control for 33<sup>1/3</sup>rpm and 45rpm
- | 23mm platter in damped Poly-Vinyl
- | Damping design with triple-plinth structure
- | Luxurious materials
- | Rigid Turntable Design

Alan Sircom:

*It is an elegant design with a similarly elegant sound, and it has seductive looks. Add to that the simplicity of set-up and this is a turntable that should get lots of attention. It's easy to use, easy to live with, and easy to love.*

# VALORE 425 PLUS

Turntable

The Valore 425 Plus is the most complete and musically satisfying turntable of its category, offering unbeatable audio performance and a great musical pleasure. An elegant and modern turntable, handmade in Italy with the finest quality materials. Its name means both "worth" and "value" in Italian and that is exactly what it is: a fantastic turntable that offers all you need to fully enjoy every LP.

- | Fine speed adjustments (pitch control)
- | Electronic speed control for 33<sup>1/3</sup>rpm and 45rpm
- | Refined plinth design for vibration control
- | Rigid Turntable Design

External power supply (optional)	PST-10
Finishes	Walnut, Silver foil, Black, Transparent acrylic

Just as the deck is perfectly pitched in terms of cartridge matching for the money, it's also extremely well-matched in terms of the kind of system this turntable is likely to partner.

NEW

# VALORELITE II

Turntable

The new Valore Lite II is a completely new design featuring a 30mm thick HDF lacquered plinth, a precision inverted bearing, a high quality transparent 15mm thick platter, custom ogive anti-vibrations and adjustable feet and our acclaimed B-5 tonearm to offer unbeatable audio performance at a very competitive price. A stylish, contemporary turntable handmade with premium materials, it features a carefully machined plinth optimised for vibration control and damping, a high-precision synchronous motor for smooth and stable rotation, and the 33<sup>1/3</sup>rpm and 45rpm manual speed selection.

- | High-precision synchronous 12V motor
- | High-precision inverted bearing
- | Vibration-damping geometry
- | New platter design
- | Ultra-rigid plinth in HDF
- | Handmade in Italy
- | Anti-vibrations and adjustable feet
- | Rigid Turntable Design

# CARTRIDGES

**TUSCANY GOLD**  
MC Low Output Phono Cartridge

Frequency response	5-55000Hz
Output level	0.25mV
Impedance	4Ω
Suggested load	47Ω
Tracking weight	1.8 to 2.1g
Diamond	Super Micro Ridge
Cantilever	Boron
Coil wire	Silver
Body	Duralumin 7000 alloy

**TUSCANY RED**  
MC Low Output Phono Cartridge

Frequency response	10-50000Hz
Output level	0.35mV
Impedance	20Ω
Suggested load	>200Ω
Tracking weight	1.8 to 2.1g
Diamond	Micro Ridge
Cantilever	Boron
Coil wire	Copper
Body	Duralumin 7000 alloy

**MACHIAVELLI MKII GOLD**  
MC Low Output Phono Cartridge

Frequency response	10-40000Hz
Output level	0.4mV
Impedance	30Ω
Suggested load	470Ω
Tracking weight	1.8 to 2.1g
Diamond	Line Contact
Cantilever	Boron
Coil wire	Copper
Body	Duralumin 7000 alloy

**MACHIAVELLI MKII RED**  
MC Low Output Phono Cartridge

Frequency response	10-40000Hz
Output level	0.5mV
Impedance	40Ω
Suggested load	470Ω
Tracking weight	1.8 to 2.1g
Diamond	Micro Elliptical
Cantilever	Aluminium
Coil wire	Copper
Body	Duralumin 7000 alloy

**DONATELLO GOLD**  
MC Low Output Phono Cartridge

Frequency response	10-40000Hz
Output level	0.5mV
Impedance	40Ω
Suggested load	470Ω
Tracking weight	1.8 to 2.1g
Diamond	Micro Elliptical
Cantilever	Aluminium
Coil wire	Copper
Body	Duralumin alloy

**DONATELLO RED**  
MC High Output Phono Cartridge

Frequency response	10-35000Hz
Output level	1.8mV
Impedance	140Ω
Suggested load	47kΩ
Tracking weight	1.8 to 2.1g
Diamond	Micro Elliptical
Cantilever	Aluminium
Coil wire	Copper
Body	Duralumin alloy

**NEW**

**VASARI SHIBATA**  
MM Phono Cartridge

Frequency response	10-30000Hz
Output level	4mV
Impedance	500Ω
Suggested load	47kΩ
Tracking weight	2g
Diamond	Shibata
Cantilever	Aluminium
Coil wire	Copper
Body	Duralumin alloy

**VASARI GOLD**  
MM Phono Cartridge

Frequency response	15-25000Hz
Output level	4mV
Impedance	1000Ω
Suggested load	47kΩ
Tracking weight	2g
Diamond	Elliptical
Cantilever	Aluminium
Coil wire	Copper
Body	Duralumin alloy

**VASARI RED**  
MM Phono Cartridge

Frequency response	15-25000Hz
Output level	4mV
Impedance	1000Ω
Suggested load	47kΩ
Tracking weight	2g
Diamond	Conical
Cantilever	Aluminium
Coil wire	Copper
Body	Photopolymer resin

**ES-78**  
MM Phono Cartridge

Frequency response	15-25000Hz
Output level	4mV
Impedance	1000Ω
Suggested load	47kΩ
Tracking weight	2g
Diamond	Conical
Cantilever	Aluminium
Coil wire	Copper
Body	Black POM

# PH-1000

Phono stage

The PH-1000 is simply the best phono stage we have ever created: a unique piece of audio engineering designed to be innovative in every possible way and 100% made in Italy. For the first time ever, you will be able to play virtually any record the way it's meant to be thanks to infinite EQ curves with 4 manually adjustable presets plus 36 EQ curves. That's why the PH-1000 is a complete game-changer, opening a new era in vinyl reproduction.

External power supply (optional)	PSU-1250 / PSU-1000
Valve output stage (optional)	TUBE-1012 / TUBE-1006
Finishes	Black, Gold, Silver

- | EQ curves
- | Gain, Load and Capacitance fine adjustments
- | Mono/Stereo
- | Class A output stage
- | High-quality connectors
- | High-quality analogue components
- | Headphone amp with sensitivity selection
- | Display for ease of use, SKC (Single Knob Control) and IR remote

# PH-10

Phono stage

The PH-10 is an ultra-versatile phono stage that offers unique features, including EQ curves, load and gain adjustments: a fully analogue design, engineered exclusively with the best components to recreate the musical event in the most natural way possible. The user friendly Single Knob Control (SKG), combined with the color display, allows quick adjustments of any function in real-time during music playback.

- | 6 EQ curves
- | Gain and Load fine adjustments
- | 2 independent RCA inputs
- | High-quality analogue components
- | Display for ease of use

External power supply (optional)	PSU-10
Finishes	Black, Gold, Silver

NEW

# PH-5

Phono stage

The PH-5 is our latest phono stage, a new refined machine to experience vinyl, engineered with the audio technology we developed for our highly acclaimed PH-10.

Dedicated to modern audiophiles, the PH-5 offers a true Class A analogue signal path, great building quality and unparalleled ease of use - for the first time ever, all the settings can be changed using the touchscreen and the innovative user interface.

The PH-5 is designed to perfectly match both MM and MC cartridges with great flexibility thanks to the wide range of load and gain adjustments. And to ensure the highest fidelity with LPs, it also features 6 EQ curves and an incredibly low-noise background for maximum listening pleasure.

- | 6 EQ curves
- | Gain and Load fine adjustments
- | 100% analogue audio signal path
- | Audiophile connectors
- | High-End components
- | Ultra-low noise
- | TFT colour display with touchscreen interface

External power supply (optional) **NEW PSU-5**

Finishes **Black**

# IS-1000 MKII

Integrated streaming amplifier

The super integrated IS-1000 MKII is the first true All-In-One in the world of the High-End audio, designed to offer a premium audiophile experience. The IS-1000 MKII features a massive toroidal transformer driving a powerful Class AB amplifier, an MM/MC phono stage, an audiophile DAC, and a high-resolution streamer to easily stream music from the best music services, such as Tidal (and Tidal Connect), Qobuz, Deezer, vTuner and Spotify. With the dedicated app GN Control (available for iOS and Android) you can fully control the IS-1000 MKII and its wide range of digital and analogue inputs and experience the real pleasure of high-definition audio at home.

- | MM/MC phono stage
- | High-End DAC
- | Digital and analogue inputs
- | Class AB amplifier and massive toroidal power supply
- | Plug&Play and easy to use
- | Supports: Tidal, Qobuz, Deezer, Spotify, Roon, MQA and vTuner
- | Tidal Connect, Roon Ready
- | Wi-Fi, Bluetooth and Airplay 2

Finishes

Black, Gold, Silver

# IS-10

Integrated streaming amplifier

The IS-10 is our new state-of-the-art integrated streaming amplifier designed for audiophiles. Our expertise in audio technology is seamlessly integrated in a compact All-In-One built around a high-performance DAC to support High-Res music, up to DSD256 and PCM 32/384kHz.

The powerful stereo amplifier delivers 140W on 8Ω driving effortlessly a wide range of loudspeakers, or audiophile headphones thanks to the 6.3mm headphone output and dedicated amplifier with its precision resistor volume control.

Fully Roon Ready, the IS-10 is compatible with all UPnP/DLNA services and Airplay 2, and can be controlled with our GN Control app to stream from Tidal (including Tidal Connect), Qobuz, Deezer, vTuner and Spotify Connect. Add high-definition Bluetooth and firmware updates delivered over the air, and you have a complete source enclosed in a compact-sized ultra-rigid dampened aluminium chassis.

- | High-End DAC
- | Supports: Tidal, Qobuz, Deezer, Spotify, Roon, MQA and vTuner
- | Tidal Connect, Roon Ready
- | Wi-Fi, Bluetooth and Airplay 2
- | Digital and analogue inputs
- | High quality headphone output
- | Stereo: 2 x 140W on 8Ω  
Mono: 1 x 280W on 8Ω (with PA-10 EVO)

Finishes

Black, Gold, Silver

# CD-1000 MKII

CD Player

A state-of-the-art CD player which integrates both a digital and an analogue stage in an elegant unit. The CD-1000 is housed in a beautiful brushed aluminium chassis and made of high-quality components, providing great audio performances and versatile functions. It recreates a natural and detailed sound, with surprisingly "analogue" qualities.

External power supply (optional)	PSU-1250 / PSU-1000
Valve output stage (optional)	TUBE-1012 / TUBE-1006
Finishes	Black, Gold, Silver

- | Ultra-rigid mechanism in aluminium
- | Low-jitter clock
- | Massive chassis in aluminium
- | Digital inputs and outputs
- | Optional external tube output stage
- | Optional external power supply

# CD-1000 TRIO

# DS-1000 EVO

Streaming DAC

The DS-1000 EVO is our new generation streaming DAC designed to push the boundaries of digital audio to new heights. It represents the definitive digital audio source for a High-End system. Featuring a Dual Mono DAC design, leveraging one DAC chipset per channel to deliver the highest audio quality and achieve the best channel separation, crosstalk and dynamics - while the class A discrete component design output stage guarantees outstanding musicality and realism. The latest technology in digital audio also allows extremely high resolution, up to DSD512 and PCM 32bit/384kHz, to enjoy the finest details while streaming from Tidal (& Tidal Connect), Qobuz, Spotify Connect, vTuner, and UPnP/DLNA media servers. The DS-1000 EVO is also Roon Ready and offers Airplay 2 and Bluetooth for extended connectivity. Available in two models - DS-1000 EVO and DS-1000 EVO LINE featuring the integrated class A preamplifier stage and stereo RCA unbalanced and XLR balanced analogue inputs.

- | Dual Mono DAC design
- | Supports: Tidal, Qobuz, Deezer, Spotify, Roon, MQA and vTuner
- | Tidal Connect, Roon Ready
- | Wi-Fi, Bluetooth and Airplay 2
- | Digital inputs
- | Analogue inputs (optional)
- | Up to DSD512 and PCM 32bit/384kHz
- | High quality headphone preamp
- | Preamplifier with class A discrete components output stage (optional)
- | TFT colour display with audio metadata

External power supply (optional)	PSU-1250 / PSU-1000

# DS-10 EVO

Streaming DAC

The new DS-10 EVO is the streaming DAC for the contemporary audiophile, a D/A converter with a cutting-edge streamer, a line preamplifier and a headphone amplifier. In addition to the already complete connectivity, it also features high-definition Bluetooth and the audiophile 6.3mm headphone output. The DS-10 EVO supports high-resolution files, such as MQA, native DSD256, and up to DSD512 when streaming through USB-B.

With the dedicated app GN Control, you can stream easily music from Tidal, Qobuz, Deezer, vTuner and Spotify - or directly from Tidal thanks with Tidal Connect. A fully Roon Ready streamer, the DS-10 EVO is also compatible with all UPnP/DLNA services, and Airplay 2.0.

And it's the only streaming DAC that allows you to manually adjust the behaviour of the DAC with our innovative Chameleon technology to fine tune your system to your favourite genres. It also offers an impressive headphone amplifier that will perfectly match any headphone (from 8Ω to >600Ω). On top of that, the user experience has been improved with a renewed interface and it now allows for firmware updates over the air.

With the additional analogue input (available for the LINE model only) the DS-10 EVO becomes the perfect partner of the PH-10 phono stage and the centrepiece of a modern audiophile system.

- | Integrated line preamplifier
- | Headphone output
- | Digital and analogue inputs
- | Plug&Play and easy to use
- | Supports: Tidal, Qobuz, Deezer, Spotify, Roon, MQA and vTuner
- | Tidal Connect, Roon Ready

# P-1000 MKII

Preamplifier

Designed for High-End audio systems, the P-1000 MkII is our class A line preamplifier powered by the new proprietary Six Gain Stage Ultra-Balanced design, featuring relays and optical ALPS Encoder volume control. The P-1000 MkII belongs to a new era of electronics. Top performances and advanced technology combined to offer an outstanding musical experience, with incredibly low distortion and extended linear bandwidth.

External power supply (optional)	PSU-1250 / PSU-1000
Valve output stage (optional)	TUBE-1012 / TUBE-1006
Finishes	Black, Gold, Silver

- | Class A design
- | 8 analogue inputs
- | High-quality analogue components
- | Display for ease of use
- | Mono/Stereo with Phase inversion
- | 6 gain stages

#### 6Moons:

*Gold Note's fully balanced preamplifier showed itself as a very high-resolution essentially neutral performer whose key strengths were tremendous depth of field, masterful untangling of complex interludes and, directly related, very high magnification powers of subtle detail.*

# P-1000 TRIO

## AN OUTSTANDING MUSICAL EXPERIENCE

The TRIO setup combines our P-1000 MkII preamplifier with the dedicated PSU external power supply and the TUBE output stage, a multi-chassis phono stage that delivers the utmost quality. These three products can be purchased individually and together act as one delivering an outstanding musical experience.

# PA-1175 MKII

Power amplifier

Class AB power amplifier with a selectable damping factor for easy matching with a wide variety of loudspeakers. PA-1175 MkII features proprietary optical BIAS to deliver high power with ultra-low distortion, as well as optical decoupling to overcome the downgrading solutions of traditional electronics, assuring the highest level of electrical protection and unbeatable performance. Thanks to its BTL technology, it's easy to use in stereo and mono mode.

- | Class AB design
- | Stereo/Mono
- | BTL technology
- | 4 pairs of power transistors
- | Damping factor selection

Finishes

Black, Gold, Silver

#### 6Moons:

*For hifi hardware, I'd now have this company's first new stereo amp in two decades. It's called PA-1175 where 'PA' is short for power amp, not public address system. For the complete experience, one would obviously want an entire Gold Note system. It's something this company actually do offer.*

**NEW**

# PA-10 EVO

Power amplifier

Musically engaging and controlled, the PA-10 EVO is a compact power amplifier designed for modern High-End audio systems and able to drive any loudspeaker with power and control.

You can use one in stereo or two as monoblocks to get the best audio performance. Despite the size, it's extremely capable and efficient, delivering 140W of power in stereo (8Ω) and 280W in mono (8Ω).

Carefully designed with select components, each unit is meticulously assembled and tested by hand.

- | Balanced and unbalanced inputs
- | Fully balanced power amplifier
- | Stereo/Mono option
- | Exclusive adjustable Damping Factor
- | Automatic ON/OFF Trigger Control IN/OUT
- | Stereo: 2 x 140W on 8Ω
- | Mono: 1 x 280W on 8Ω

---

Finishes Black, Gold, Silver

---

# XS-85

Loudspeakers

The XS-85 is our masterpiece: a full-range, 3-way floor standing loudspeaker with rear double bass reflex design entirely shaped according to the iconic Gold Note design. It delivers state-of-the-art performances, guaranteed by high-quality components combined with elegant cabinets. Extremely versatile, the XS-85 is capable of reproducing the most challenging musical passages impressively and realistically, with crystal clear details.

Finishes

Walnut glossy, Black glossy,  
Gold leaf

- | 3-way, full-range speaker
- | Multi-port bass reflex
- | Superior crossover circuitry design
- | High-quality components
- | Premium materials and luxurious finishes
- | Completely made in Italy

#### High & Style:

*As a musician, I especially appreciate a high level of musicality of the performance with a certain dose of "playfulness". Plus the breathtaking Bella Figura!*

# A6 EVO II

Loudspeakers

Featuring a totally new look on the front panel, the A6 EVO II, with its distinctive diamond-shaped body, is designed to control vibrations the best. The combination of its unique shape and the cabinet creates an ultra-rigid structure that enhances power control and provides a greater dynamic response, maintaining ultra-clean and powerful high frequencies.

- | 3-way, full-range speaker
- | Multi-port bass reflex
- | Premium materials and luxurious finishes
- | Completely made in Italy

Finishes

Walnut glossy, Walnut matt

## 6Moons:

*It's lovely when a concept is so clear about what it wants, then so clear about giving us just that, exactly. Being rather handsome to boot then comes as a bonus.*

# A3 EVO II

Loudspeakers

This elegant 2-way bass reflex bookshelf loudspeaker sweeps audiophiles off their feet despite its very compact size. The A3 EVO II's stunning diamond-shaped cabinet is exclusively handcrafted in Italy by the best wood-makers to achieve an ultra-rigid structure and the truly best audio quality. Exceptional components, including a silk dome tweeter, ensure an extended frequency response.

- | 2-way bookshelf speaker with bass reflex
- | Premium materials and luxurious finishes
- | Completely made in Italy

Finishes

Walnut glossy, Walnut matt

#### HiFi+:

*This gorgeous little pair of speakers is like a tuned Fiat Abarth. More sound and fun than you'd ever think could come from that small shape.*
